Pandion Partners S.L. expands further in Europe. The UK was for a long time still a white spot on our map. With Alinea on board we are now adding an important financial market to our European region.

“A very warm welcome to our new members **Mr. Oliver Wadlow** (Partner) and **Mr. Simon Lloydbottom** (Partner). I am very excited that they are joining our team.

Oliver co-founded Alinea, alongside Simon, and has a background as a Chartered Accountant trained at BDO LLP, bringing a fresh and more engaged approach to corporate finance advisory. His journey includes roles at a national accountancy practice, a large advisory boutique, and a global accountancy firm.

Simon co-founded Alinea, alongside Oliver, and has built expertise on a foundation of experience from leading advisory firms, global accountancy practices, and corporate banks. He is passionate about working with midmarket businesses, especially those in technology sectors, to get transactions across the line. Simon has a background as a Chartered Accountant by training, and honed his skills at Clairfield International, BDO LLP and Lloyds Corporate.

We are delighted to have Alinea on board in the Pandion family and strengthen further our presence and capabilities throughout the European region”, said **Sebastian Moss**, Managing Director of Pandion Partners S.L.

“We are delighted to become a member of Pandion Partners S.L.,” said both Oliver and Simon. “We believe in taking a far more individual and effective approach for all of our clients. Our adaptability means that we can offer truly personal financial advisory services designed to maximise value for mid-market companies and their owners. Our expertise spans company sales, buy-outs, private equity, valuations and investment, each delivered with a more connected approach that comes from being business owners ourselves.”
